

## **IMPORTANT!!!**

### **2320 South Closure**

As part of the SR-201 Design-Build Project, the intersection of 2320 South and Redwood Road will be reconstructed in three phases. Beginning **March 3, 2005** the following work will begin:

#### **Phase I (West leg construction)**

- The west leg of the 2320 South and Redwood Road intersection will close for approximately 60 days.
- No access to or from Redwood Road will be available on the west portion of the intersection.
- Please detour to 2495 South. (See the Phase I map below for more details.)

#### **PHASE I MAP**

West leg of intersection closed at 2320 South and Redwood Road.

Detour route utilizing 2495 South.

#### **Phase II (Center of intersection construction)**

- Following the reopening of the west leg, the center of the 2320 South and Redwood Road intersection will be under construction for approximately 60 days.
- No through traffic will be allowed from 2320 South. All traffic will be forced to make a right turn at Redwood Road.
- Redwood Road traffic cannot turn left at 2320 South.
- All right-turn accesses will still be available.

#### **Phase III (East leg construction)**

- Once the center of the intersection reopens, the east leg of the 2320 South and Redwood Road intersection will close for approximately 60 days.
- No access to or from Redwood Road will be available on the east portion of the intersection.

More details regarding Phase II and III construction and detours will be forthcoming.
